ASSEMBLY

1. Insert the chain hook (included) into the chain link storage compartment.
2. Ensure the chain hook is securely in place.
3. Use the lever as a tire lever to remove the tire.

NOTE: Power Lever is not compatible with Shimano* 11/12 speed Quick-Links (SM-CN900-11 / SM-CN910-12) when used as power link pliers.

WORKS AS POWER LINK PLIERS
- Removes master links
- Installs master links
- Option 1 (Recommended)
- Option 2
